

Yale Education Studies Scholars Field Experience Fellowship 2023

Thanks to the support of an anonymous donor, the Education Studies program will offer a fellowship to support Education Studies Scholars and Certificate students in gaining field experience in education practice, policy and/or research. We will award grants of up to \$5,000 maximum. Students may apply for less than that amount in combination with other funding sources, but they may not apply for additional TOTAL funds beyond \$5,000.

This fellowship is designed: 1) provide compensation and cover living expenses for what would otherwise be an unpaid or underpaid education internship; or 2) fund a student research project in education.

Awardees doing internships must secure their own placements, and they must demonstrate that they have no other sources of funding available to support their internship (for eg. they have applied to all other university funding sources, and they have already used an SEA for internship or research purposes).

Education Studies Scholars and Certificate students are eligible to apply. The Fellowship is intended to support full-time work/study that is your **primary** commitment of the summer, for a period lasting at least eight weeks. At the end of the summer, Fellows will submit a brief report describing their learning through the field experience.

To apply: Please include the following in a SINGLE PDF document titled **LASTNAME.EDSTfieldexperiencefellowship.Summer2023.pdf**

Your proposal should include 1) a proposal (see below) 2) written confirmation of your internship (if available) 3) a resume and 4) a copy of your unofficial Yale College Academic Record.

Name:

Graduation Year:

EDST Scholar or Certificate student?

Internship/Research Position:

PROPOSAL: Describe your plans.

For internship projects; What is the organization you hope to work for, where is it located, and how is it connected to education?

What responsibilities will you have as part of your internship this summer? Who will be supervising you? Is the internship confirmed?

For those proposing research projects, what do you hope to research? How is it important? Who is a faculty member who is agreed to supervise you? Does this project need to go through an IRB review? How do you see this connecting to your potential Capstone project?

For both: How would this opportunity complement your education-related coursework, both already completed and planned for the future?

(750 words maximum)

AVAILABLE FUNDING AND NEED

Please explain: What is the status of your applications for other Yale sources of funding (eg. SEA, Manzella fund, President's Public Service fellowship, YANA, etc)?

--

ITEMIZED BUDGET

Please detail a budget of your anticipated summer expenses, any other sources of funding, and any relevant information about your need. What will be your cost of living over the summer? Please provide an itemized breakdown of your estimated total expenses.

Here is an example:

Estimated expenses	Amount
Airfare (New York to London)	\$700
Local travel (train to work)	\$210
Housing (\$1000 per month for 3 months)	\$3000
Food (\$100 per week x 10 weeks)	\$1000
Mobile phone	\$90
Total expenses:	\$5000
